I'm an Investor

I own a large construction company

I have all the resources I need to build a property management company and I have customers and Units to Manage

I'm looking to interview potential partners. I need someone specialized in the leasing side and leasing management side. This is not a training position. I need someone with a successful history in this business and just dont have the business savy, money, or clientel to make it.

I build businesses. I make money.

I'm going to build this company slowly- by slowly I mean probably only 20-50 units year 1. Then I will analyze what I have learned and decide on a calculated growth strategy.

Please send me a resume and a list of reasons you feel qualified for the partnership.

To be clear- this will be a equity partnership- i'm not hiring an employee, i'm recruiting a partner

I look forward to hearing from
