Looking for a Welder - Wanting Steel Welded Veggie Bed

I have a veggie bed that has a wooden perimeter - however, it is now decaying and falling apart. I would like to stop replacing it, so I thought a metal perimeter would be best. I think the best metal would be steel, but would be happy to hear your recommendations. I am not sure if this is even possible, so I haven't measured it, etc. First trying to gauge the possibility of this. If you are welder and have experience with doing such a thing, please let me know. I can then provide measurements, so you can give me an idea of cost.

Here's a photo of a welded veggie bed that I found that I like -http://3.bp.blogspot.com/-H-IRIKRs_FY/Tl6osNdqxaI/AAAAAAAAAJM/iz9FDoappSw/s320/steel%2Bgarden.JPG
