I need a babysitter (any age no experience required) for my son starting on Friday nights from 4pm to Saturday morning at 10pm. My son is 13yrs old. He is not potty trained (due to past medical reasons I am recently training him for the first time and would like for you to continue with him while I'm gone) and for this reason he wears diapers. He cannot change himself and you will have to check him routinely and change him. Other than this and cooking he can generally take care of.
