Subject Freelance Photographer Needed (, USD)

Location **Utah**
https://www.genclassifieds.com/x-283351-z

Hello! We're an international vacation rental company looking for a skilled amateur or professional photographer to shoot a 4-bedroom house in Salt Lake City. We'll need interior and exterior photos to showcase the vacation rental on our website.

If you're interested in learning more about this opportunity, please email with some examples of your work (either attach photos or include a link to your online portfolio). Be sure to include any real estate work if you have it! Please also list what equipment you use, and if you have an ultra-wide angle lens.

There is no post-processing work for this shoot. We use software to enhance the images and require that our photographers equipment can bracket exposures and follow our step-by-step settings. More details will be provided after selection.

We're offering $100 USD total for this shoot, and if we're pleased with the results and you followed our instructions, we'd love to continue working with you to shoot other homes as our network continues to grow in the area.

Thanks and we look forward to hearing from you!
