US News 2015 trending Civil Rights March,Environmental and Social Justice "WTO Battle in Seattle 1999 - 2015" The World Revolution 1999 - 2015 World / USA MAY DAY May 1 2015 Light The Fires of Freedom M1 : DAY of ACTION "STOP Trans-Pacific Trade Partnership" http://en.wikipedia.org/wiki/Trans-Pacific_Strategic_Economic_Partnership "M1 : Light the Fires" MAY DAY : On May 1 2015,we call on all Americans and Activists around the World to remember the WTO March of 1999 and how the Totalitarian 'jack-booted' Police-State under orders of the (republicans/democrats) ended our US Constitutional Rights and Freedoms by illegal,unconstitutional brute force,chemical weapons attacks and fascist violence...In 1999, Generation X Americans,Activists of all ages and Nationalities from all over the World converged on Seattle Washington USA to Stop the World Trade Organization Meetings (Globalists 1% Elite). A Generation "Stood Up and Fought Back" against America's Ruling Class - less Corporate-State 1% Elite and against the false-World Leaders of the Tyrannical World Trade Organization.In Defeat, the Zionist Corporate Media printed their own made-up version of the events and demonized those who were fighting for Global Justice.We all became aware that the US Constitution was voided as the Freedom of Speech and Freedom of the Press no longer exists in the so-called United States of America.We fought against Corporate-State Control and Exploitation of the Earth's Natural Resources to stop the hostile takeover of our Food and Water Supplies.The USA "Corporate-State" News Media Lied about and Censored our Voices from this Defining Event in American History (example is the NY Times : Lies and Propaganda). Fifteen Years After the Seattle Police viciously attacked,illegally arrested/incarcerated and violently beat thousands of Civil Rights Activists and Environmentalists in the Streets of Seattle Washington the truth of these Events is still kept out of USA History Books...America or more correctly "Post-America" now exists in a fascist Police-State Dystopian "After-World" Nightmare that most us can barley comprehend while the Corporate-State Zionists have kept the Americans as mindless 'farmed slaves' via Wealth Inequality,Chemical Dumbing-Down,Police-State Fear Programming and Corporate - Government Media Brainwashing...The Planet we all fought to protect has been turned into a Environmental and Social Wasteland under the Rule of the Zionist Corporate-State Dictatorship aka The Oligarchy.The Voices of Generation X is still silenced,banned,censored and blacked-out by the US Corporate Media 'fake-News' tv,newspaper,magazine,radio,Internet Propaganda Industry...
