I am a research assistant looking for black participants for the ADAPT research study. The purpose of the study is to see how the father's involvement impacts academic and behavioral outcomes of black adolescent in a single mother households.

Qualifications:
Must be African American/black
child(ren) must range between the ages of 12-18.
Child(ren) must live primarily with the mother.
father must be involved at least 3 times a year.

If you are not eligible for this study, you can still help by forwarding this flyer and/ or information to someone who does qualify.
- Thank you, Geneva
