Hello!

I am a freelance photographer here on Oahu specializing mainly in fashion and portraits. I am looking for a photo assistant to help me with my gigs when they come up. Experience is not necessary, though preferred, but you must be reliable, punctual, have your own transportation, and have a desire to learn. Being able to lift/ carry a heavier load would be helpful as well.

I frequently shoot tests on my own where I would not be able to pay you, but I would be willing to teach you and answer your questions. I also have higher-paid gigs from time to time that would have a budget for an assistant, in which case the rate would vary depending on the budget for the job. Specifically, I am looking for someone for the day of April 15th.

If you are interested, please respond with your experience with photography and assisting, and your portfolio (if you have one). Please also mention if you'd be interested in the intern or paid gigs, or both, and whether or not you are available to work (for pay) on the.
