Great dog, for someone with a yard. Hes not fixed and even though weve worked with him to our wits end he still pees everywhere, even after hes just gone outside. Weve done everything "right" as far as potty training and he just keeps going inside, we take him outside and then he will come in and go again within 20 min. He has the sweetest personality ever, hes awesome with kids, cats, and other dogs....he loves everyone and everything i just cant justify keeping him in a small apartment ... despite his flaws we have a rehoming fee because id rather deal with his problems than give him to a bad home .... call or text for
