

# MUSIC PRODUCER AVAILABLE pro credits, gear, and studio (Los Angeles)

Location **California**  
<https://www.genclassifieds.com/x-370436-z>

I am a music producer who can help you make whatever music you need, including entire tracks where I can play all the instruments and program keyboards or electronically flavored beats, or just do a great job recording your acoustic songs.

I have played several instruments all of my life, and I have worked with some of the best talent in the world, as well as graduated from two recording schools (one of them under a scholarship).

I have a passion for helping musicians capture and create their ideal vision, and I have set up a studio specifically designed to help songwriters or bands get their music made in a comfortable, safe environment with equipment, instruments and a capable producer here to cater to your needs.

I can also help with film composing or mixing.

I have devoted myself to a life of service to others through music.

Contact with me with your goals and a phone number so we can talk about how I can help.

Thank
