* HONDA * 13HP Motor with Powermate / Coleman - BLACK MAX GENERATOR 8125

Honda motor info:
4 stroke OHV
Model: Gx390
SERIAL #GCANK - 1061580

cold start & walkaround video
https://youtu.be/OkHX-uN0nMM

Powermate/Coleman generator info:
Surge: 8125watts
Running: 6500watts
Serial # D26012608
Model # PM0496900

Motor is clean. No problems. Great running Honda. Starts on first pull like a Honda should.
This is a very popular commercial motor used on pressure washers, generators, long shaft go-devil style motor, go-karts and more.

The Powermate generator is not generating power. The brushes may just need to be changed. I do not know enough about electrics to fix it. I do not have any spare parts for the motor but do
