QR Code Link to This Post Continental Cargo trailer that has been completely redone. Triple axle (6,000lbs) heavy duty hauling trailer. We gutted this trailer and replaced the insulation, wood paneling on all the walls, wiring, lights, and floor boards. This is a frame up restoration on the trailer. We were going to make it into a camper, but have not finished. There is a heater/ac, large flood lights on the outside, 5 windows, and a generator door (no generator though). This has been a great trailer for the handful of times that we have used it, we are just not in a position to keep it for a storage container at this point. Asking 12,000 but will be open to other reasonable.
