Online SQL Server Training, T SQL, SSIS, SSAS, SSRS (Online)

Location **Vermont**
https://www.genclassifieds.com/x-503554-z

I am an independent tutor working in Database/ Data Warehouse industry for 10 years. I offer personalized online SQL server training to help you achieve your goals. T-SQL and MSBI (Microsoft Business Intelligence tools like SSIS, SSAS and SSRS) training is a series of live face to face classes designed considering the latest updates in dynamic industry. Courses are focused on learning and application of skills required in real time while performing job, assignments or handling projects.

Why you should do the training?
- In this world where data is everything, organizations usually face lack of adequately skilled resources in database management industry, which provides excellent career opportunities

- As per Bureau of Labor Statistics, employment of Database administrators is projected to grow 15 percent from 2012-2022, faster than the average for all occupations

- Focus of training is to provide you with the skill sets required to outperform in such a growth oriented career path using hands on approach

Who should do the training?
-People from any work field, who are planning to switch to IT
-Those who are in database and planning to start a career in MS BI
-Students who are graduating and looking for excellent job opportunities
-Those who want additional skills for career advancement

Typical past course takers' realized goals after Learning SQL Server MS BI Course:
It helped them to land a better job, improve existing performance and get salary hike in respective sectors. You can find a new job in IT positions which are having great human resource demand like BI Developer, SQL Developer and SQL Programmer Analyst etc.

About Training:
Learn to build and manage SQL Server databases with SQL. Training courses provide the skills needed to build a solid foundation for SQL Server development. It is an interactive class model where lots of practice cases are done in class and doubts are solved immediately. I will also provide you with numerous [illegible] like home projects which will allow you to excel and differentiate yourself from others. Recorded video lectures are also given for your future reference.

I have three courses, one for the beginners and the other two for advanced users.
Course Duration:
Only SQL - 5-6 weeks
OR
MSBI (SSIS and SSRS) - 7 to 8 weeks.

https://www.genclassifieds.com/x-503554-z Online SQL Server Training, T SQL, SSIS, SSAS, SSRS (Online)
