Will you be hosting an outdoor, or even indoor, event where there will not be many or any tables and/or chairs available, but you would like to offer food and drink, such as a wedding reception, family reunion, organizational picnic, mega-tailgater, etc.?

Go Plates + Solo cups could be a perfect solution. Go Plates adapt to beer bottles, beer or soda pop cans, Solo cups and select wine glasses by becoming the handle for the Go Plate. The Go Plate is a sturdy, reusable, washable, clear plastic plate that allows you a free hand for convenient eating and drinking in social settings where tables and chairs are few or non-existent.

The Go Plate was custom engineered with a specially designed center hole, flexible grippers and ridges that accommodate most bottles (long neck and aluminum), cans (standard 12 & 16 oz.), plastic cups with rolled rims (16 & 18 oz.), and select wine, cocktail and beer glasses. To drink, simply lift the Go Plate off the beverage, drink, then replace the plate to continue eating with your free hand or a flex straw can be inserted in the drink receptacle right in the middle of the plate and the plate doesn't need to be moved at all!

I have 270 new, never-used clear Go Plates and 250 clear, heavy-duty 16 oz. Solo cups plus 100 domed-with-center-hole lids and 100 flats lids that fit the Solo cups. I am offering the Go Plates/Solo cups combo in lots of 50 for $40.00 per lot (that's 80 cents per guest) or if you would like to purchase the entire group of 270 Go Plates, 250 cups plus all the lids, I will let them all go together for $200.00, which works out to 75 cents per guest.
