I need a a banner and post card designed ASAP.

For the post card I already have the design, I just need an edit but, I only have the picture of the post card.

For banner I have the verabge and elements / layout but will need it designed digital.

I need this done TODAY ASAP. My budget is only \$50 together, if you can do it for that price, please send me a phone number and samples of work. I need to get it done today, if you're available to work on it, please contact me.

Test question: What DPI should the files be made in?
