I have two suzuki lt 80 for sale. One has a bad starter and the other one has low compression. If you know anything about these quad is that they are tough and dependable. A starter and top end kit can be found on ebay for a small fee. My kids have outgrown these quads and i need the space, so it time to let some other kids hae fun. If you are interested give me a call or text at three,34(five)20..six!!855. Will take pic when i get a chance this.
