I have a speed co 5 ton electric log splitter. Its been used 10 or 15 times. Its a great little splitter for using it on the back pof a tail gate. You can pick the hole thing up and carry it. Good for splitting okay pieces of logs. you cant split what a 30 ton can but i split everything i burn with it. its a goos little machine for someone that cant afford a big gas one or cant store it any where. Its maybe 2 or three food long. I may have the box it came in too. Havew any questions or want a picture feel free to call or text me.

200
