ESTATE AND TRUST PLANNING

Effective estate and trust planning can ensure financial security for loved ones. For business owners, it can maintain a smooth succession of ownership. Our role is to help you and your attorney navigate the complex and shifting tax laws to facilitate the transfer of assets and minimize the tax liability of your beneficiaries. Everyone should have a well-thought-out plan as to how to distribute the assets left in one's estate so as to avoid complications and to be sure that the individual's wishes are followed. Having your

taxes and estate thoroughly and carefully planned will ensure that your loved ones don't have any complications to deal with during a time of loss.

FINANCIAL AND RETIREMENT PLANNING

Our goal is to help you reach your financial goals and maintain financial independence through a comfortable retirement. Along with your financial adviser, we can help guide you through tough decision-making processes such as asset allocation, investment performance monitoring, college education funding, retirement plans, insurance, tax, estate, and business succession planning. Whether you are developing an investment strategy or evaluating current investments, We can work with your investment adviser to ensure that your portfolio will take into account tax implications for an advantageous after-tax return. The road to retirement is a long one and we can help you to take the proper steps to reach your goals.

BOOKKEEPING/WRITE-UP

Accurate record-keeping is essential to a successful business yet can also be complicated and time consuming. Making sure your small business has adequate documentation before the IRS is a key to success. We can help you with the organization and day-to-day tasks of bookkeeping so that you can focus on your core business. We can maintain a general ledger for you and provide a detailed trial balance or management-use statements monthly. We also provide a variety of resources on our "Tax Tools" page, including financial calculators, records retention guides, etc. Abacoa Tax uses QuickBooks platforms exclusively to implement their bookkeeping and payroll services.
