36" Oliver Planer, 440 volt, 3 phase, 20 hp direct spindle drive. Runs excellent.. comes with extra large chip collector that is 220 volt, 3 phase. with a box of 15 mil thick bags for the chips. This unit comes with 40 motor, Phase converter, 220 volt to 440 volt step up transformer, all breakers and wiring to hook up in your shop. This thing is a beast. I am getting out of the business so my equipment is being sold off piece by piece. NOTE: I do not text, email, accept checks or paypal. If you are serious, just call.
