Netherland dwarf rabbits (Belleville)

Location **Missouri**
https://www.genclassifieds.com/x-631363-z

Looking for a new furry friend ?

Netherland dwarfs are the smallest rabbit breed in the world. They weigh anywhere between 1.1lb-3.5lb (my rabbits are in the 2lbs range, so that's how much their babies should weigh.) Despite being smaller than most breeds, they are active and need room to run around. I breed for best temperance possible, my rabbits are all tame, loving and cuddly. I have been raising rabbits for 10 years, Netherland dwarfs for almost 2.
i'm a small rabbitry with 20+ rabbits
I have the following colors ;
black otter
silver marten
black
chocolate otter
charlie marked
and broken black.
My baby buns are normally always black otter.
I have a few rabbits available currently
1 black otter doe
1 black buck
1 charlie marked buck.
they are $30 each, or $50 for 2.
I have a few of my best quality rabbits for the show ring. This shows they are the recently won 5 and champion as well as other high ribbon, reserved grand champion.
I will start showing in [illegible] very soon.

I have a litter of 3, out of my best stock !
I plan on keeping the does from the litter, but I'll sell the bucks. These will be great show quality. So they are more than pets. prices will range from $50-$70 depending on how they look when they get a little older.

feel free to contact me about my rabbits. We can easily set up a time for you to come pick out your bunny :) Thank you !
