I am a drummer based out of Saint Louis, MO who is available for session work. I record out of my home studio (Logic Pro X). My main influences are Tool, Meshuggah, Opeth, etc., but I am happy and willing to write drum parts for any band or artist of any genre that would like drums recorded for their material. Please contact me if you are interested. I have posted below some videos of my drumming (both covers and original work) if you want to reference them to see if I'd work out for your music. Thanks!
