Any Job, Large or Small

BENEFITS:

-Completely removes stumps
-Hassle free
-No stump, or hole to deal with
-Only byproduct is mulch
-Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves the foliage and surrounding landscaping untouched. When we clean up, we leave the chips in a pile or spread them around for mulch, depending on your preference. This process makes stump removal a much more affordable and easier way to remove stumps rather than using excavation.
