By Owner. 1972 Land Rover Series 111 with less than 50k miles. This one has a 2.5l diesel! If you are looking for a classic Land Rover then you know what this is!

The Rover has left hand drive, OVERDRIVE allowing speed over 60mph, new seats, snorkel kit, roof rack, winch, jerry can and recent $7000 in documented suspension, brakes, brake lines, gearbox rebuild etc etc. drives perfectly down the road, stops as it should.

I am only selling it as I have 3 Rovers now

and my next project is my one owner series 11a. Email for additional info etc. price over.
