Licensed Civil Engineer, Licensed Land Surveyor, Structural Engineer, and Vermont State Certified Wastewater Designer. Licensed in Vermont, Florida and New York.

I can perform home inspection services, design water and wastewater systems and perform structural designs for wood, steel or concrete applications. I can design roads, bridges, ponds and dams, and subdivisions, ACT 250 permit processing and Land Use Planning.

I also farm a NOFA Certified Organic Farm and am familiar with farm practices, wetlands, and make grass silage bales. We currently have only 28 bales of Certified Organic First Cut 2015 Grass Silage with 50% moisture and an average weight of 1200 pounds each and the price is $55 per bale. If you are in need, please call me at or leave a message
