I am experienced in cooking a variety of cuisines and can prepare meals for individuals, families and dinner parties. Also I can buy all the things that we need. I can prepare meals at your home or also deliver pre-made meals to your door. I can cook special order and for people with dietary restrictions. Usually I prepare everything from scratch.  
 And of course you will have after my work a clean kitchen ;)  
 Please contact Kerstin called Kay for details.

btw...I try to add always the pics from the newest dishes,which I cooked for my clients, so you can see, what could be your dinner or lunch next..;)
