QR Code Link to This Post I have a nice 1 ton Jib hoist that is a free standing model and spins 360 degrees. It can from the Denver school district and has very little uses. (I'm not sure it has been used.) I have every thing you see in the picture and a brand new bearing for the top of the post. The Bottom of the I-Beam would be about 8 ft of the ground and it has an 8 ft 8 inch I-beam. It could be made taller if you put in on a pedestal. It was made by Contrx Industies and it is a model B-288. I AM OPEN TO OFFERS AND I CAN LOAD. Call or text with the reply button above.

I DO NOT HAVE A WINCH OR CHAIN FALL
