My name is Scott Haden, I repair credit and get your score to where it needs to be! I know how to fix your credit no matter what it is! I have years of experience in taking a bad credit report and turning into a positive one! It is just me, I do all the work! I am a one man operation and I worked for Citibank for 19 years, once I left the bank I saw a need for what I used to do training classes on for years. How to get what the bank is looking for in order to get a home, car ect. I am speaking from the heart when I say I take what I do very serious, I do not ask you for some crazy amount up front and do nothing for you! My fee is \$89.00 up front and from there it is \$69.00 a month. I have a program that deals directly with the credit companies and know how to remove and get your score up so you can start living and getting ahead. Without credit you do not have the capability to live to your full potential. I understand the trust you put into me in turning over what effects every aspect of your life! This is why I have created a program to get you where you need to be! You have access to me on my cell phone anytime you need me. You get your own user id and password to see the progress I am making with your credit accounts. This way you know from day one what I am doing and can see the progress we are making! Yes, I am not going to be the guy that says you can buy a car in 30 days or a house, but I will promise you that my years of experience will not only fix your credit but provide you with the information you need to keep it and how to stay on top! The bottom line is Money makes Money! When your credit is bad it cost you thousands of dollars in all different ways. Car insurance, bank loans, credit card rates, you name it and it is there. I have made this as affordable as I can for you to start your road to recovery no matter what the circumstance. That's the bottom line! If your serious about securing your financial future call me and we can discuss how to get you where you need to be!
