Hello my name is DeAnna. I am a licensed all around master cosmetologist. I do EVERYTHING. I am currently doing hair from home and offer services to women only.. I can do my best to make you feel beautiful when you get out of my chair. Please feel free to inquire about a service if interested. I also do hair for photo shoots if needed and will travel if not too far and gas will be added.

A few things I ask when making an appointment with me or getting your hair done at my home are:

-Please call me if you are a new client because I do like to speak with my potential clients and discuss business that way instead of through a text message.

-Please do not bring an "entourage" to my home when you are scheduled to get your hair done because as I said I do hair from home and do not want a lot of people that are not getting a service done sitting around in my home. I understand some of you may have kids. If you can keep them still while you are getting your hair done they are more than welcomed.

-LADIES please do not bring your boyfriend with you to get your hair done. As I said I only service women while I am doing hair from home and that is for the safety of myself. NO MEN ALLOWED. Thank you.

-Last but not least if you feel you are going to be late to a scheduled appointment please give me a call way ahead of time as if you don't this becomes inconvenient and it could be a spot someone else could have taken. Also if you are going to be late and do not give me a heads up I may still take you but I will add \$10 to your service for every 30 minutes you are late as a late fee for inconvenience and time wasted, so please understand this is my job and I don't have time to waste.

This is only part of my price list & you may view my full price list on my website which I can text or e-mail to you upon request. You may also see more pictures on my website as well! <http://www.styleseat.com>
