Certified and hoping to be parents

It's admirable that you are taking the time to consider the best plan for your child. If adoption is becomes part of that plan we hope you will consider us as the family for your child.

We are a loving, silly, adventurous married couple hoping to adopt. We'd be thrilled to start a family, and would definitely consider an open adoption if expectant parents were interested. We love babies - but we're excited about the whole package - diapers, homework, even the teen years!
