Looking for Female Singer (Long Beach)

Location California https://www.genclassifieds.com/x-624644-z

I'm a guitarist and songwriter living in the Long Beach downtown area. The type of music I write is a mix of Alt-Rock & Indie-Rock. I play music with a bassist & drummer and I have about 15 songs written that are instrumentals now, but I want to develop these songs for vocals. We're in our late 30's and 40's. If that's too old, I'm sorry but we're not gonna lie about our age. I'm looking for a female vocalist in the Long Beach area who has a strong singing style and some stage presence and who would like to join us and develop these songs together. The goals would be to play gigs and do some recording eventually, but above all is just the fun of playing original music. If you are interested, reply to this ad. If you have a direct e-mail address, I can send you a sample of some of our rehearsal recordings. And if you have some recordings too, include them in your reply.
