93% of buyers choose a business on page 1 of the search engines, usually where all the bigger companies are. Only 25% of people will click on the paid ads or PPC vs. 75% of organic results.

That means IF YOU ARE NOT ON PAGE 1 YOU ARE LOSING A TON OF BUSINESS DAILY online to your competition! You might as well write a check and send it over to your most hated competitor.

Now imagine the phone ringing with a steady stream of new leads! What would that do for your business? --For your peace of mind?

We specialize in helping SMALL BUSINESSES get amazing results even knocking down MUCH larger competition through our proprietary methods and technology that took 8+ years and \$1.5 million to develop. That allows me to give you 200+ new, fully-optimized pages to your website vs. the measly 10-20 keywords other SEOs offer.

Listen to what our happy clients are saying:
 "MY PHONE STARTED RINGING OFF THE HOOK."
 "IT'S AMAZING, WHAT'S HAPPENED TO OUR BUSINESS AS A RESULT OF THIS. . ."
 "IT GIVES ME THE APPEARANCE OF BEING A MUCH LARGER BUSINESS"
 "THIS MONTH JUNE COMPARED TO LAST YEAR I'M UP 147% AND ITS ALL FROM (YOUR SOLUTION)." -Warren, owner at Epoxy Amor Systems in California.
