

JK Fencing (Omaha areas)

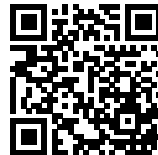

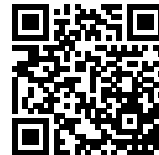

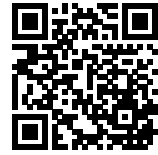

Location **Iowa**

I have a side business called JK Fencing. I remove and install fence. The pictures attached are previous work done. Call for your free estimate today. I stand behind my craftsmanship for at least a year to insure everything settles like it should. The weakest point of a fence is the gate. That's where my extra time into what I do for the gate system makes it last. I live here in Omaha.

I work mainly with wood fences

Thanks
