

Trade Website Development for Patio Work (Gretna)

Location Louisiana https://www.genclassifieds.com/x-654107-z

Hi there. I've been in the Website Development Industry for over 10 years now. I would love to discuss a possible trade for services. I am looking to have my back patio done with either brick or stone. I currently have a large concrete slab. If anyone is interested in a professional website for their business, please shoot me an email.
