Hi..We have found a beautiful Pointer, I am not going to leave any detail..other than this Dog is very sweet and my husband and I would love to see this dog returned to owner. The Dog was found 12/22/2015, by the Park just off Power Line in Nampa. We called Nampa Police Department to see if anyone had reported a lost Dog, and animal control to check for a chip. We will hold on to the GSP until contacted by the owner, you will have to be able to describe the GSP or we will NOT release it, if you are the true owner that should be not be a problem. It is now the day after Christmas and no one has come forward, I will continue to hold the Dog for the total hold time, after that my husband and I will decide what to do. I would hate to this beautiful baby go to the Animal Shelter because I am not sure if it is AKC, and I would hate to adopt it out because I would feel just horrible if I gave it to another family and then have someone come forward. But for now it will continue to stay with us. If ANYONE knows someone missing a pointer. Please call me, I am sure the dog would like to go home to its family. P.S. It had a great Christmas :)

Rhianna
