Island Cars is a Hawaii based car rental company that helps customers save money and has been renting vehicles to residents and visitors alike for over 14 years.

If you've gotten rental car quotes that seem unusually high (over \$500 per week) for any of the major Hawaii airports -- we can help! We can book discounted rental cars at all the Hawaii airports through our corporate account. If you need a vehicle during a peak rate time, we can usually beat the best online quotes by over 20%!

Please get your best online quote (contact us even if quote says no cars available) and call us at to secure something before inventories sell out!

Our headquarters are on Kauai where we also rent quality used, reliable, affordable rental cars, minivans, trucks and SUVs - all available at significant savings. We offer deeply discounted weekly and long term rates, as well as the benefit of not looking like a tourist in any of our vehicles!

For Kauai specific car rentals, please call the Kauai office directly at to make a car reservation or for any other information about Kauai used car rentals. You can also check out: <http://www.islandcars.net/>
