Looking for Investors that can invest up to $\$ 1,000$ and expect back up to $\$ 10,000$ in profits. I only earn when I'm successful at what I do. You are paid before I get a cent. This is a business for me. If you can afford to make less of an investment to test the waters, that's fine but plan on sticking with a successful full time investment once this takes off. Only working with the first 5 people to reply. Text
