QR Code Link to This Post Josh Jones Construction LLC with over twenty years experience, we can meet all your needs, from the foundation to the shingles on your roof and everything in between, we can do it all!

We specialize in custom framing and house remodels and currently operate as a two or three man team but can pull in more if needed. As the general contractor I (Josh Jones) am very hands-on and have excellent communication skills.

## Specialties:

House/Structure Framing Carpentry  
 Cedar or Hardi Siding and Trim.  
 Custom Concrete (paths, foundations, porches, etc)  
 Granite or concrete counter-tops  
 Brick masonry  
 Sheet-rock hanging/taping  
 Interior or exterior painting  
 Tile work

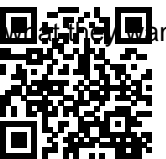

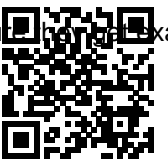

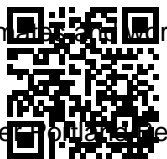

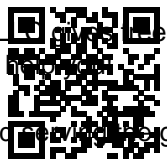

We have done a lot of home additions and custom homes. I can provide a list of references and pictures of previous work upon request. If you want a general contractor for your project who actually sets the beams, drive the nails, and does the labor while keeping track of the big picture and directing my team, you've come to the right place! No middle man to drive the cost up. I'm not a general who will be driving around in a truck all day and juggling 2-3 other jobs. When we start a job, we stay with it until completion before taking on the next job.

About Me:  
 I'm an Oregon Native having grown up in Salem and starting as a framer at the age of 16. We moved back to the Portland area after leaving a successful contracting business in Hawthway Pine, California from 2004 to 2014 (California CSB #848524). We are currently booked up through August so take advantage as we build upon our local client base in the greater Portland Metropolitan Area. Our rates are competitive and we do top notch work.
