QR Code Link to This Post Personal info: I'm 5'-11" 155 pounds. Depending on the day, I can sing from about 2 F's below Middle C to F above in normal voice with another half octave or so above that in falsetto. If you listen to my covers you may feel I am fairly versatile in terms of range and type of music. I prefer to write songs from others' instrumental work but there are covers I like to do too. There are some covers (almost three dozen) and originals on soundcloud starting with the link below.. If you want me to help you write some songs or you need somebody as a vocalist for songs like these you can text me at I show a picture of me, my mixer board, and my jam space. Thanks.
