Denis can play acoustic/classical music (or any special requests) for the Ceremony/Dinner Hour and then rock the Reception dance floor with over 3,000 watts of top-of-the-line Digital PA and DJ-style lights. For your Reception, Denis will play live and, if you want, will gladly DJ the last portion with classic party songs and today's dance hits for modern dance music fans. Think of the money and hassle you'll save just dealing with ONE PERSON for all your wedding and reception music needs!

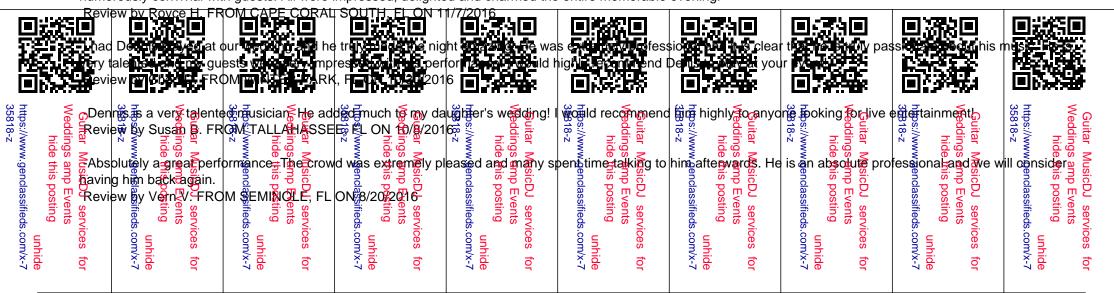

If you have an event/corporate dinner coming up, Denis can take of everything as well. Whether you want smooth acoustic background music or professional DJ services, you won't find a better option for the price.

Bottom line: with us ALL Music worries are over!

Holding Bachelors of Music in Guitar Performance from prestigious Stetson University Denis understands that success in the entertainment business requires more than just talent. It requires hard work, being responsible and being prepared. Denis will do all he can to meet (and exceed) his clients needs, & make their event a pleasant and unforgettable experience for everyone. I have an ability to read the crowd and play appropriate music that comes only with years of performing experience. I also have a huge repertoire of songs everybody knows and loves, my huge song list is always growing.

Ask my clients!
