EVOLVE YOUR ONE STOP IT SOLUTION

Evolve Design PLUS Technology?

Yeah, turns out they aren't mutually exclusive. Without one, the other just isn't very effective. Great design is only great if it's functional. Technology is only useful if it can be understood. One feeds the other, therefore we embrace them both. The whole point of working with technology is to create something that feels human. Until it EVOLVE'S into something that's neither design nor technology, but a natural extension of our lives. That's the thinking that built our business. We love the plus.

ProTools, Ableton, FL Studio (Fruity Loops), DAW Software, Production and Audio Lessons EVOLVE! (www.evolvedesignllc.com) CERTIFICATIONS & MUSCLE-**FLEXING**

Looking to further your knowledge in Ableton, Final Cut or ProTools? I have been working with both for 20 plus years and am fluent in all audio programs.

"Cut Glass Ent."Â In Living Color Lead Choreographer/Dancer

"Fleur De Lisa" - Stevie Wonder's NYC Event Planner,

"Flow": Recording Artists Power Broker to Warner Elektra Atlantic Corp (WEA), Universal Music Group (UMG) and Sony Music Entertainment (SME), Burger King Corp.

A one hour lesson costs \$25. You will learn issues and techniques that will allow you to become more time efficient, more creative, and a better producer overall. Areas Covered Include: Setting up a session properly Data Management of your song files Computer Compatibility Issues Use of Plug-ins including Reverb, Delay, Auto Tune, and Compression Advanced Mixing Techniques.

Our background in audio / video production and computers combined with a patient teaching style and love of working with people creates an engaging and effective learning experience for our students. As tutors we empower the student to navigate the technology that they are learning to use. We want the student to be at the controls of the device -- not us -- and to support the student in becoming independent and confident with the technology they need.
