Looking for your LIVE performance to be captured onto DVD ?
 Great for promotion, on the web, and for personal use.

~ Up to 6 HD Canon cameras are used !! ~

Hey there, Video Mike here offering
 an ON LOCATION Filming service.
 My prices are far CHEAPER than most out there offered !
 Cause as a band I know you don't make much money.
 My prices include up to 6 cameras filming and all editing.
 Hence: DVD's - DONE DIRT CHEAP !!
 ALSO can offer JUST FILMING
 and YOU can edit them. You just get files..

~ OVER ALL VIEW TO FILMING LIVE BANDS ~

The main purpose is to represent the Musical Talent with great audio & good video,
 BUT if only 1 was available Audio is the way to go.

That is the most important fundamental in filming live bands.

You can't have fancy things if you don't have good audio.
 Just do the best production quality if a person can't hear
 what you are doing like. It's a horrible thing to care
 they will say you they hired you to perform a service of business
 REMEMBER THIS - On the web bad audio makes you
 sound like a no matter how talented you are!!

record and give you edited LIVE recordings of what band you want. PLAY LIVE !!
 A self Producer who films and promotes bands in the western ma area.

Also a local musician who plays drums AND percussion too.
Always looking for more bands to film who are ORIGINAL
and COVER BANDS are on the smaller circuit.

I use all CANON VIXIA HF R 300 & 400 camera's
with DOLBY STEREO and 16X9 screen.
This is done at FULL HD 1980X1080,
but as a DVD to watch it comes out 720X480 in SD
but looks great. To get files in HD I can put the file/s
of the songs onto a DVD, but it would have to be
on a Blu-ray to VIEW on a player in HD.

I can go to Festivals, small venues, or places where there is no electricity.
I download into the computer and
make chapters of the songs and burn a copy.
IF you are not local or too far away, I would need 50% deposit and
then the rest when ready to send OR Meet up locally
Then you get the DVD sent to you in a week or two (depending how big the show is),
in a Bubble Mailer. (priority mail extra)
OR I can meet up with you if your local and get you copies in person.
I also make nice up to 6 camera videos for youtube with these cameras.

Check out my youtube site for some examples of what I have shot...

THESE BANDS ARE ALL ORIGINAL

DrumJamMusic2

When I upload a video, I can make it full HD for viewing. IF you want the DVD to have all songs in HD I can do that as a file, so it could be used to upload online and
viewed to see on a computer, not a DVD player.

Unfortunately after trying to film 4 bands at the tank,
I can't do multi cameras there as it was a stadium sound in a closet.
The entire room was vibrating. Not 1 camera was able to be
vibration free no mater what I did. So if anyone wants to be filmed,
not at the Tank in Agawam.
