QR Code Link to This Post I am searching for a Maltipoo puppy preferably or a small, hypoallergenic dog. It is only me and my husband in the house, so the puppy would be well taken care of and have our full attention. I have allergies, thus the need for a hypoallergenic dog. Further, we prefer a small dog. We travel and our dog will travel with us, but due to airline travel restrictions on brachycephalic dogs (dogs with smashed faces such as pugs, bull dogs, Pekingese, etc) these dogs are not allowed on the airplanes, thus would not be a good match for us.

Preference for dogs that are UTD on shots with certification and preferably have parent/s on premise. We insist on meeting current owner and dog before any purchase to ensure compatibility with the puppy. Willing to travel up to 3-4hrs distance for the right dog.

Emails only. Please include photos, details, and rehoming fees into.
