QR Code Link to This Post The log splitter available for rent was formerly a U-Haul commercial grade rental. This is a very rugged machine that will crack any nut you got.

The wide blade really opens up the log (see last image), you frequently don't need to run the ram very far and that speeds up the job.

Specifics are:

26" ram.

52 ton drive.

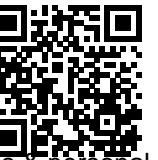

16 horsepower engine, electric start.

Wide trailer axle & heavy frame make for a most stable setup.

Low splitting beam, only 17" top side above the ground.

Simple single lever operation.

2" trailer ball required.
