QR Code Link to This Post I've posted on here before looking for help, but I've decided to seek a hand up instead of a handout. I'm looking for a few good people who be interested in helping me start a small business in exchange for free service. The purpose of this business to create sustainable income for myself and my mom. I intend to take advantage of an increasing demand in the Treasure Valley and surrounding areas. My car was recently in an accident and it is currently undriveable. As such, I need to lease a vehicle in order to start my new business. I need a minimum of \$500 to start this business, but I would prefer to have some reserve to extra expenses. Ideally, I would like to have \$1,000 to start. In exchange for your investment, you will receive a limited number free trips around the Treasure Valley or I can pass it along and help someone else in need.

Here's a breakdown of the cost to startup this business:

\$310 for a rental

\$70 for full coverage insurance

\$60 for fuel costs

I really need to get this started as soon as tomorrow, so I can cover our immediate needs.

Thank you and Merry!
