QR Code Link to This Post Well established 75 Gallon fresh water aquarium (48" L x 21" H x 19" D) \$250.00,

You get EVERYTHING including the fish!! I have Angels (2), Silver Dollars (2) Rainbows, an assortment of Tetras, Cats and a Pleco.

Items include tank, hood, light, new heater, undergravel filter, outside box filter... EVERYTHING!

Tank has silk plants, drift wood and assorted rock. The back and sides are painted black (on the outside of the tank of course) The paint could be scrapped off if you want to change colors or eliminate.

Also included is over \$200 in new unused silk plants, TONS of accessories! Extra items such as heaters, filters, chemicals, food, nets, air pumps, air stones, and decorations. All the extras are worth over \$300 alone! So between the new plants and extras... that's over \$500 WITHOUT the tank set up and fish!! Must take all, will not sell off pieces.

This tank is cleaned every other week. I have many years of experience in maintain aquariums so you know this tank is very well maintained.

I have it built into my wall and apologize for the poor "rear view" pic.
