

Me and my wife will be staying in the Biloxi area for most of Dec and we are looking to photograph some special photos to add to our new portfolio collection for next year.

The main area we work out of is the Gulf Shores Alabama area.

This offer is for a limited style of photos that we are looking to shoot for our gallery to use to show this new style we will be offering.

Each session will include all the edited images and print rights so you can make as many prints as you like. You will be able to download all the images when done.

We will be offering to shoot some on the beach session and some at other locations like a wooded forest area or an open field with flowers or brush that looks good.

What we are looking for is Toddlers and small children for child photos that will be highly edited with soft color tones and more you will love.

Looking for kids to have and wear classic outfits old style earth tones or Girls that have a fantasy fairy style dress or dance style puffy dress. Hats and other props are welcome as well like a pet dog or other animal.

Over time we will start offering to come back to the area for some session photos we can have here a few times a year but that will be at our normal price									
We will be going for a soft creamy blurred background look in the photos.									
We can do in high school senior or two as well.

So this is your chance to have some fantastic photos of your kids and family at this one-time price as you help us expand our new photo look.

To set up a session time and day call my wife Donna at

Here is a few of our sample photos to show the kind of look we are going.
