QR Code Link to This Post Every piece of electronic equipment has a small amount of "Magic Smoke" inside of it. You know what happens then.....you are playing and all of a sudden, no sound. You turn around to see a wisp of smoke rising from your axe. Well, fret no more, I can replace that magic smoke so that your amp or keyboard will once again allow you to make thunder with the gods!!!

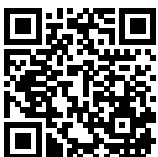

Electronic Musical Instruments and amp repair.

I charge \$35 per hour and do not charge for estimates. I will not charge any more than \$200 labor for any repair. If I cannot repair it, I do not charge for my time. You will need to deliver the instrument or amp to me and I will let you know how much it may cost. I will only proceed when you have approved the repair. Any parts needed, I will have you purchase and ship to me. That way you do not get charged 1000% markups as some places will. As a working musician myself, I understand that you want a reliable repair for a reasonable price.

I am a retired owner of a medical laser company. I do not do rush work. I have also played music around the midwest for over 50 years, (keyboards and drums).

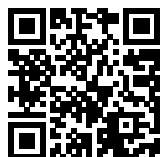

Contact me through Craigslist or call or text me:

Pete Zimmer
