QR Code Link to This Post Hey, my name is Uri Kabiri, and I'm a Music producer and vocal producer from Nashville TN with a ton of experience working with different kinds of singers and with different kinds of commercial music and commercial songs. I will work with you over Skype, Facebook or phone, to help you perfect your songs, and record for you singers/Backing vocalists from Nashville (we have all kinds of 'em) singing the lead/creative backing vocals to compliment your songs. You can sing and I'll record backing vocalists or you can choose to let others sing your songs and I'll record it all. I can record a demo or a master in any scale for you in Nashville and you'll be proud of what we come up with. I have so much to contribute to you as a singer and/or a songwriter. I can help you write/develop hit songs, teach you about delivery, energy, meaning behind the music and lyrics, teach you special techniques and help you feel relaxed when pitching a song to interested parties.

I've had my recording studio for 34 years, working with all kinds of singers, actors, voice over artists and even singing models, singing in all genres of songs, musicals, jingles, you name it.

People say about me that I can bring the gold out of everyone and everything. A lot of times it's extremely hard to bring out the gold out of stars/celebrities/divas and I've proven that with me it's very doable.

PLEASE SEND ME A DETAILED MESSAGE. THE MORE DETAILED YOU ARE THE BETTER I CAN ASSIST YOU.

You wouldn't believe some messages I get:

Person 1: "Hi" (is this a chat room? Spill it :)).

Person 2: "I'm interested" (Sweet. in what?).

Person 3: "I want you to help me" (Well, I kinda figured that, since you answered my post. Whatcha need?).

Person 4: "I saw your ad" (Cool, now we both saw it. What do you need help with?)

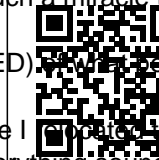

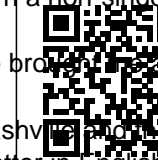

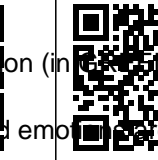

I'm not mocking anyone, but you have to agree we could have done it more efficiently. Other messages give me all the details I need to know if I'm a good fit for the job.

The following links all demonstrate the BEFORE and AFTER stages of several songs I've produced, in several genres.

Most of these songs were sung by non-singers, which makes my work harder but so much more rewarding.

It's one thing making a great singer greater, but it is pretty much a miracle to turn a non-singer into pure gold.

Each YouTube link will have a QR code written explicitly in RED) for what people browse first and then tap on the QR code clip with their smart writer's application (in case you don't have a phone with it or can't open it) :
 All of these songs were recorded in my studio in Nashville before I moved to Montana. I'm in Hollywood music industry, I speak 3 languages and emotion, I speak emotions everywhere, and I prefer working in English, cuz everything sounds better in English.
