QR Code Link to This Post I took over fostering these little sweethearts when the first foster mom went on vacation and they have been so much fun and exhausting at the same time. They were born indoors and kept with their mama until they could eat on their own. They are small for their age - 3 months old. The little boy is gray and the female is brown with the female being smaller than the boy. They are both such loves. They love affection and attention and will follow you around and sleep with you. Of course that is when they're not playing. They are full of energy and love to play. The boy has the most unusual, gorgeous, bluish green color eyes. He is hard of hearing but can hear loud sounds which makes him want to play with the vacuum while all the other cats run and hide. I would like the brother and sister to be adopted together since they've been together all their life and love to play together. They are fixed, microchipped, have been dewormed, and have been flea treated. If you would be interested in adopting any of these kids please call me at . They are all so adorable and so loving and just looking for their forever.
