I am posting this to try to help people out who are rehoming there small animal. I am not a 501 yet, but plan on becoming one within the next year or so. I have grown up around animals and volunteering at shelters and even with service dog programs. I have a huge heart for all kinds of animals and would love to open my heart and home up to some in need. Below is a list of animals i can take at this time. Please do not contact me if you're looking for money i spend about 200 a week on food and supplies . i have a vet but have never used them . I have had animals who are disabled and not very nice. I have a bunch of setups already and supplies so i can take just your animal if need be. I never rehome an animal unless a owner says its ok but time to time i have babies or some for adoption. I can take any kind of freshwater fish from small to large. I can take any type of reptile or amebiana as well. At this time i am not taking turtles as. I am always looking for supplies so if you have stuff you're throwing out contact me first. I have references as well as i can send pictures of my current animals and there setups. I might be able to take other animals so don't feel afraid to contact me . i know lots of rescues and places that can help if i can't . best way to contact me is through text. I work from home and go to school from home so my animals are rarely left alone. I hope i can help and i look forward to hearing from you.

ect please
