QR Code Link to This Post Looking to surprize my wife and would like to wax my back, chest and the whole package.... (Lol) I know this sounds funny but I am very serious. Definitely not interested in going to a spa facility. You must be discrete as I am. Never ever did anything like this before or even thought about it. Kinda scared here as seeing this on some reality shows I know it's painful so you having skills is a must. Also due to the nature of this I prefer female but not 100% necessary. Pay is negotiable. You must.
